Complete cycle of AySA servicies

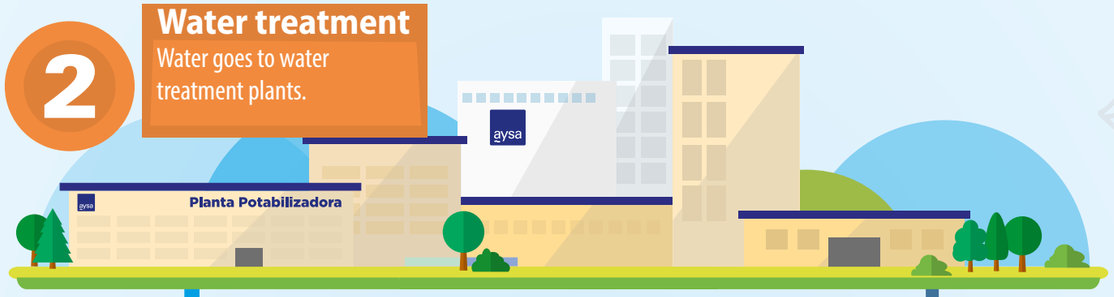

1 Intake

AySA takes water from the river through an intake tower.

2 Water treatment

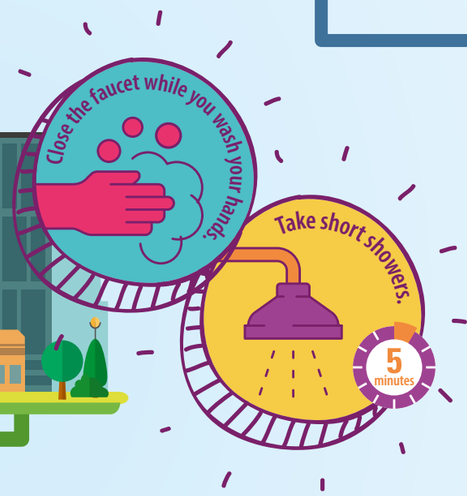

Water goes to water treatment plants.

3 Distribution

Through a large distribution network water gets to our homes.

This cycle comprises water and wastewater treatment processes, and it is carried out **24 hours a day, 365 days a year.**

4 Collection

Once it has been used, water goes into the sewage system to wastewater treatment plants.

5 Wastewater treatment

In sewage treatment plants, wastewater is treated, so most harmful materials are removed.

6 Discharge

The treated effluent is returned to the environment safely.
